Prakhar Gupta

Software Engineer | Full-Stack Development and Security Tooling

Prakhar06.work@gmail.com | +91 81758 46122 | GitHub | LinkedIn | Portfolio

OPEN SOURCE

OWASP cve-lite-cli — Contributor | Sep 2026–Present

TypeScript, Node.js, security tooling

- Contributed **13 merged PRs** to a vulnerability scanner, including a fix for false clean results when usage scans exceed 5,000 files and improvements to dependency version handling.
- Added CI coverage for the declared Node.js minimum, running the full test suite on the supported floor for every push.

Sugar Labs, Music Blocks — Contributor | Jun–Oct 2026

TypeScript, React, SVG

- Contributed **five merged PRs** improving block selection, dragging, duplication, and SVG geometry.

EXPERIENCE

Schrader Web Solutions — Web Developer | Jul 2026–Present | Remote, Michigan

Next.js, TypeScript, Resend, Turso

- Joined as a freelancer and became part of the agency team; contributed **57 merged PRs** across client and in-house websites.
- Rebuilt the agency website in Next.js and developed a PageSpeed/Lighthouse audit tool used in sales pitches.
- Built and maintained websites for local businesses, including contact forms backed by Resend and Turso.

Home Tutor Platform — Freelance Full-Stack Developer | May–Jun 2026

Next.js, Supabase, NextAuth, Tailwind CSS

- Delivered a nine-page site and 12-section admin dashboard with role-based content management, database-driven SEO, and WhatsApp/email lead capture.

Bits & Bytes — Back-End Developer Intern | Apr–May 2026

Node.js, discord.js, SQLite, Docker, FFmpeg

- Built meeting scheduling, role-based access, and audio transcription for a Discord utility bot serving a 1,000-member community.

SELECTED PROJECTS

Bhumi Vikas Sahayak (Sarthi) | Oct 2026

Next.js, FastAPI, Qdrant, Cerebras, Sarvam AI

- Four-person team project answering questions about Madhya Pradesh building rules with exact rule and PDF-page citations. Hybrid retrieval and reranking found the correct rule in the top five for **15/15** in-scope sample questions.

Clarity SMS | 2026

Next.js, TypeScript, Twilio, Neon PostgreSQL

- Built a two-way SMS inbox and browser dialer, then added consent-controlled AI voice agents, transcripts, usage monitoring, and budget controls.

Ecoaudit | Oct 2026

Python, TypeScript, AWS Lambda, API Gateway, S3

- Contributed compute-waste detectors and an AWS scanning API that checks public repositories without running their code and reports source-level evidence.

RailMind | Jun 2026

Python, FastAPI, NetworkX, React, WebSockets

- Built a beam-search train dispatch planner that cut simulated passenger-delay cost by **10.07%** against FCFS at **23 ms** planner latency across a 437 km corridor.

SKILLS

Languages: Python, TypeScript, JavaScript, Swift, SQL, C++

Frameworks & data: React, Next.js, Node.js, FastAPI, PostgreSQL/PostGIS, Redis, SQLite, Qdrant

Tools & cloud: Docker, GitHub Actions, AWS, GCP, Supabase, Twilio, Git

ACHIEVEMENTS AND EDUCATION

India Innovates '26: National Grand Finale Winner (JanSamadhan) | **InnovateNSUT '26:** 1st Place (Leafline)

Manipal University Jaipur — B.Tech., Computer Science & Engineering | Expected May 2029
